Color	Yellow
Package	0.9L

Technical Information and direction of use

Technical Information	
Cut	N/A
Gloss	10

Direction of use
Apply wax in a thin layer and keep going in circular motion. Overlap to spread the wax across evenly.
let it sit for a few minutes. To check whether the wax is ready to come off, swipe your finger on the surface. "If the wax smears it is not yet ready, if it is dry and clears away then it is ready."

IMPORTANT NOTE: These TDS are for information purposes only without any obligation as we do not have control over the quality and conditions of the surface or application

| | Wipe off using microfiber cloth, Turn the cloth frequently.

While wiping if you notice that the cloth will start developing more drag through your hand motion. This indicates that you must flip it for a cleaner side and continue. |
